FOR IMMEDIATE RELEASE

New Family Program Thanks to a Grant from The Community Foundation

Desert Hot Springs, CA - (November 21, 2014), Soroptimist House of Hope, a nonprofit organization providing residential substance use disorders recovery programs for low-income women of the Coachella Valley and San Gorgonio Pass regions, is excited to announce that we have been enabled to extend our services through the implementation of a new program made possible in part by a grant from **The Community Foundation Serving the Counties of Riverside and San Bernardino**.

The \$4,240 grant will support a new Family Program at our Desert Hot Springs recovery facility. This generous award will enable us to enroll clients and their family members in a 3-Day Family Program conducted by The Ranch Recovery Services. The Family Program offers valuable information and workshops in an intensive format, helping families understand the disease of addiction, how to change family dynamics, learn communication skills, and support the recovery process to build healthy families. This new component to our services will strengthen our "continuum-of-care" program strategy so that we can better fulfill our important mission helping women to lead successful and substance-free lives.

Many thanks to The Community Foundation for its generosity and belief in our efforts!
